

## Acoustic Party Wall DPC

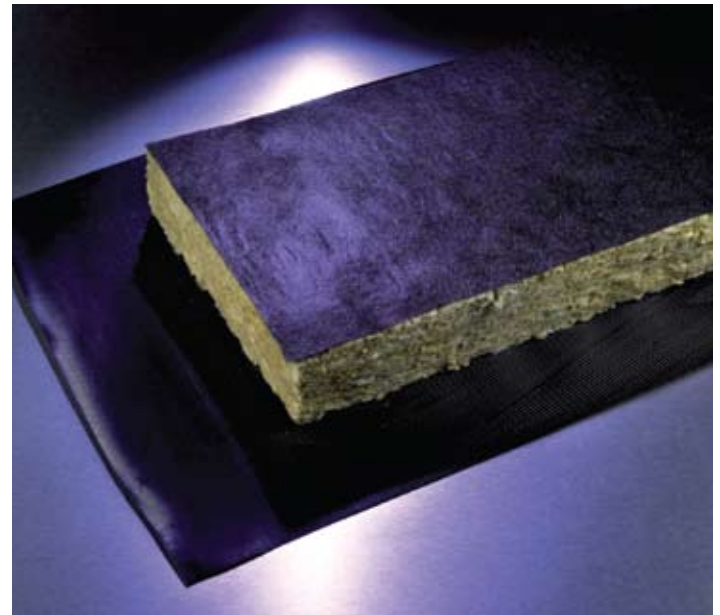

### The Product

John C Wilkins Acoustic Party Wall DPC is a combined acoustic and fire stopping solution, for use at separating floor and wall junctions.

It provides acoustic insulation and one hour fire resistance, by enabling the closure of the external wall cavity at the separating wall and floor junctions. Whilst also preventing the risk of water penetration.

### The Facts

- Meets Part E and Robust Detail Requirements where a separating wall or floor meets the external cavity wall
- One hour fire integrity and insulation in both vertical and horizontal applications
- Width covers most applications
- Complies with the requirements of BS EN 13162: 2001 thermal insulation products for buildings factory-made mineral wool product specifications
