

CASE STUDY

JCW Acoustic Supplies

January 2015

St Andrew's House, Ipswich

A derelict office building has been given a new lease of life thanks to a £5million renovation project.

Suffolk Housing is in the process of regenerating the empty Anton House, formerly known as St Andrew's House, in Grimwade Street, Ipswich, into 55 town centre properties.

The work, which has been managed by Icen Homes, has seen 35 one-bedroom and 17 two-bedroom flats created over four floors, together with three wheelchair-friendly apartments.

JCW Acoustic Supplies
