ACOUSTIC SUPPLIES

CPD COURSES

ENHANCE YOUR PROFESSIONAL GROWTH
WITH ADVANCED CPD TRAINING

GAIN VALUABLE CPD! FURTHER YOUR EXPERTISE IN ACOUSTICS

Our **RIBA Approved** seminar gives your team an overview of the theory and requirements surrounding Approved Document E before showing the wide variety of methods available to help ensure that the floors in your clients projects pass the all-important sound test.

All of our seminars are presented exclusively by our **Specification Development Manager** rather than being passed to our sales people thereby ensuring that the technical integrity is maintained and this doesn't become "Just Another Sales Pitch".

*Very informative,
effective, &
accessible*

**GIORGIO AGOSTINI
MAX FORDHAM'S**

COURSE OVERVIEW

Acoustic Separating Floors

LEARNING OUTCOMES

- Sound levels, types of sound and the effects of sound in buildings.
- How to design and specify separating floors to comply with Building Regulations Approved Document E.
- Flooring systems available for different methods of construction and how to comply with Robust Details.
- Acoustic requirements for change of use of buildings and the pitfalls of incorrect installation.

*The most interesting
and useful one
we've had*

**MOLLY MEYERS, REFINE
ARCHITECTS**

- ✓ Learn how to reduce sound transmission and specify acoustic floors that comply with Building Regulations Part E requirements.
- ✓ This CPD covers both new builds and material change of use projects, focusing on the key regulations and testing standards for airborne and impact noise.
- ✓ Explore practical case studies that cover different construction methods for both concrete and timber flooring solutions.
- ✓ Understand how to collaborate with architects and contractors to ensure compliant and effective acoustic solutions that meet project requirements.

FREQUENTLY ASKED QUESTIONS ABOUT OUR CPD COURSES
